

Discussion Questions and Activities for the “Acacia Tree” Video

Questions for Younger Students

1. Where can you find the acacia tree? Is it in a warm or cold climate?
2. How does the acacia tree thrive in its climate?
3. How do we get new acacia trees to grow?
4. What was the acacia tree used to build in the Torah?
5. What important lesson can we learn about life from the acacia tree?
6. What other examples can you think of where the inside is much more important than the outside?

Questions for Older Students

1. How do we get new acacia trees to grow?
2. How does the acacia tree thrive in its climate?
3. What was the acacia tree used to build in the Torah?
4. What important lesson can we learn about life from the acacia tree?
5. What other examples can you think of where the inside is much more important than the outside?

Activities for Younger Students

1. Draw a picture of what you think the acacia tree looks like both above ground and below ground.
2. Draw a timeline of the life of an acacia tree.
3. Write a skit of a conversation that an acacia tree and a sabra would have with each other.

Activities for Older Students

1. Draw a timeline of the life of an acacia tree.
2. Research what the mishkan may have looked like and create your own design.
3. Write a skit of a conversation that an acacia tree and a sabra would have with each other.
