

Ladies and gentlemen, it is my pleasure to introduce a renowned historian...

He is a committed Jewish community leader, who is the executive director of the America-Israel Friendship League, a member of the academic board of the David S. Wyman Institute for Holocaust Studies, a contributor to Encyclopedia Judaica, and formerly a contributing editor for Together, a publication of the American Gathering of Jewish Holocaust Survivors and Their Descendants...

He is a top expert on Jewish history, who was the historical consultant for a documentary about how Israeli astronaut Ilan Ramon took a small Torah scroll from the Bergen-Belsen concentration camp into space, who established the first Holocaust studies center in the U.S., and who appears in the Simon Wiesenthal Center's documentary as an expert on the Vaad Hatzalah Holocaust rescue group...

And he is a seasoned scholar, who is the author of several books, including "Nations United: How the UN Undermines Israel and the West" and "The Palestinian Right to Israel," and who served as the unofficial consultant to the Fruitvale Junior High School District in California for three national history projects on World War II and the Holocaust.

Ladies and gentlemen, please welcome a respected educational leader, Dr. Alex Grobman.
