

Avnet Kleiner Introduction

Ladies and gentlemen, it's now my privilege to introduce you to a man who advocates for all Israelis...

He is a leader in the non-profit world, who founded an organization to advance the rights of Israeli Holocaust survivors and another to promote constructive conversations about Israel on U.S. campuses...

He is an insightful analyst, who has examined Middle East policy with some of the world's foremost experts while working as a research associate at the Brookings Institution and the Institute for National Securities Studies...

And he is a partner to those with special needs, who works closely with Jewish National Fund to promote ALEH Negev, a remarkable rehabilitation village in Israel that provides medical and therapeutic care to residents with severe cognitive and physical disabilities.

Ladies and gentlemen, please welcome ALEH Negev's North American Director of Development, Avnet Kleiner!
