

## Hanni Arnon Introduction

Ladies and Gentlemen,

Now it's my privilege to introduce you to a truly inspiring educator...

She is a ***skilled agrarian***, who moved to Moshav Idan, the newest agricultural community in the Central Arava desert, and tilled the soil, cultivated the earth's bounty, and established a remarkably successful farm...

She is a ***dedicated leader***, who whole-heartedly believes in the importance of promoting education, culture, and welfare in her home country...

And she is an ***empowering teacher***, providing students from developing countries with the tools and mentorship to follow in her footsteps, creating successful agricultural businesses of their own.

Ladies and Gentlemen, please welcome, the Executive Director of Arava International Center for Agricultural Training, a Jewish National Fund partner, Hanni Arnon.
