

Ladies and Gentleman,

Now it's my privilege to introduce you to a man who touches thousands of lives across Israel...

He is a true partner for those with disabilities, who has spent two decades advocating for better laws for people with disabilities and serving as the national director for a state-of-the-art village for children in Israel with severe physical and cognitive disabilities,

He is a humanitarian, who is devoted to helping those in need and dedicated to creating inclusive programs for all, and lives by the mantra "Everybody belongs!"

And he is a compassionate leader, who oversees the range of Jewish National Fund partnership programs specifically designed to serve people with disabilities throughout Israel.

Ladies and Gentleman, please welcome, the Director of our Task Force on Disabilities, Yossi Kahana.
